Hi! I'm Tatiana Toro

FRONT-END DEVELOPER

I'm an enthusiastic and committed developer with a strong passion for creating engaging and user-friendly solutions that leave a lasting impact. Successfully I have developed and maintained responsive websites, ensuring a seamless user experience across various devices!

I am always looking for new challenges and opportunities to expand my skills, and I am not afraid to tackle complex projects. I believe that my determination, creativity, and technical skills make me an asset to any team.

WORK EXPERIENCES

01

FREENLANCE

JAN 2023 – JUN 2023

Nadeer Capital Partners – Michigan

- Designed and built a visually user-friendly website for NCP Private Equity Firm in North America. Utilized HTML, CSS, JavaScript, and Bootstrap to create a responsive platform that effectively showcased the firm's sectors and targeted their audience.

Maca – Michigan

- An ecommerce website specializing in the sale of skin products. Incorporated essential features like product listings, shopping cart functionality, secure payment gateways, and seamless navigation to enhance the customer experience. Responsive design principles to ensure optimal performance across various devices.

WEB DEVELOPER

EDUNEXT– Bogotá

FEB 2021 – DEC 2021

- Played a collaborative part in the end-to-end process of designing, developing, and launching Edunext Control Center, a powerful management tool that assists teams in configuring and operating Open edX platforms.
- Developed and implemented customized website designs according to client specifications.(Sports-engine, UTEC...)
- Contribution to Open edX project improving front-end base code.
- Collaborated closely with cross-functional teams, including designers and back-end developers, to translate project requirements into practical solutions.
